

Gun Skills Safety Review

Westford Sportsmen's Club, Inc.

You have requested access to use of the Indoor Pistol Range. Prior to being granted access via your club proximity card, you will need to attend a Gun Skills Safety Review (GSSR). At this review you will demonstrate your knowledge and practical use of safe gun handling.

Prior to attending the GSSR, please view the 9-minute National Shooting Sports Foundation video link on the WSC website: ***"Introduction to Range Safety and Etiquette"*** at <https://www.youtube.com/watch?v=COvFyw-6Fqs>

It is an excellent overview and sets the stage for the GSSR.

What to bring to the GSSR:

1. Bring your Indoor Range Access Request Form. It's available here:
http://www.westfordsportsmensclub.org/wordpress/wp-content/uploads/forms-docs/IR_Access_Request_Form.pdf
2. At this review, you will need to demonstrate competence in safe gun handling. Therefore, you will need to bring your pistol and target ammunition, in an approved caliber for use within the Indoor Range.
http://www.westfordsportsmensclub.org/wordpress/wp-content/uploads/forms-docs/Ammo_Rules-Indoor_Range.pdf

The GSSR will cover the following topics:

- Westford Sportsmen's Club Rules: You will be given a quiz to demonstrate that you have read and understand the Indoor Pistol Range Safety Rules. The Indoor Range rules may be viewed on the WSC website: http://westfordsportsmensclub.org/wordpress/wp-content/uploads/forms-docs/Indoor_Range_SOPs.pdf
- Gun Handling Skills: You will need to demonstrate that you have safe gun handling skills. The Indoor Range Chairman will conduct the review and observe you performing the following:
 - Safely transporting your pistol to the Indoor Range shooting station
 - Safely loading, unloading and making your pistol safe at the shooting station
 - Demonstrating that you understand your gun's safety features
 - Safely transporting the pistol from the Indoor Range shooting station
 - Demonstrating that you have safe gun control skills by:
 - Articulating a good understanding of the WSC safety rules
 - Placing 5 consecutive shots on a provided paper target

Note: If you use a .22 LR rim fire pistol for the live-fire portion of your review, you will only be allowed to use .22 caliber LR ammunition in the Indoor Range. If you qualify with a center fire pistol, you will be allowed to use any pistol ammunition posted on the approved ammunition list. This listing is posted throughout the Indoor Range.
